RE:

**NOTICE OF ENTRY FOR LINE WORK**  
**Hopewell – Lawrence OPGW Fiber Project**

Dear Property Owner:

Jersey Central Power & Light Company is planning to replace an existing cable on the above-referenced power line to enhance network communications on our electric system.

To complete this work, the company will be accessing the existing right-of-way on your property. Construction will begin on or about **March 23, 2020** and will continue for several months within the existing right-of-way. Areas disturbed during construction will be restored as soon as practical after construction is completed. In most cases, helicopters will be used to install these cables. We do not anticipate any disruption to your electric service because of this project.

Should any work be required outside of the existing right-of-way or if additional rights are necessary, a FirstEnergy-authorized representative will contact you before conducting this work.

We appreciate your cooperation with our agents and contractors. No action is required from you at this time. If you have livestock on your property that may be impacted by the use of helicopters, or any questions regarding this project, please contact our project team at (888) 311-4737.

Sincerely,

Michael M. Espinoza  
Sr. Real Estate Representative  
FirstEnergy Service Company on behalf of  
Jersey Central Power & Light Company
