

PSE&G Electric Delivery
4000 Hadley Road
South Plainfield, NJ 07080

November 8, 2016

Dear Neighbor,

Please be advised that beginning on or around November 14, PSE&G and our approved contractors will begin tree trimming along PSE&G property in front of our Lawrence Substation on Bunker Hill Road in Lawrence, NJ. Additionally, in late-November or early-December, PSE&G anticipates beginning construction on PSE&G property across from the Lawrence Substation in order to install underground manhole and underground pipe. This construction is part of the 69kV initiative to enhance electric service reliability in Lawrence Township, as well as surrounding communities.

Construction activity will be completed only during approved municipal work hours (8:00 AM – 9:00 PM, Monday through Saturday) and any impacted roadway on Bunker Hill Road within 50' from trench work on PSE&G's property will be restored.

Safety is our primary concern. To complete this work safely, PSE&G will work with the Lawrence Township Police Department to minimize any traffic concerns or inconvenience to the public when necessary. It is essential that you and anyone occupying your property, including children and pets, refrain from going near our construction work zones.

We understand that as a local resident, you may be interested in this project and how it may impact you. **Please be aware that we do not anticipate electric service outages caused by this work.** All efforts will be made to minimize inconvenience to residents during this project. If you have any questions about this project or would like additional information, please visit our website www.pseg.com/69kV or call our project hotline at 1-800-606-0045.

Sincerely,

A handwritten signature in black ink that reads "Kevin M. Kimbo".
