

Sustainable Jersey Certified Community

In 2019, Lawrence Township once again achieved Sustainable Jersey certification at the silver level. Certified towns are an outstanding group of municipalities that are making important contributions toward the long-term goal of a sustainable New Jersey and world.

To become Sustainable Jersey certified, Lawrence Township completed a balance of the rigorous program's sustainability actions. Lawrence Township did five priority actions and completed 37 actions in 13 different categories. Approved actions include education and outreach for energy efficiency, building healthier communities, prescription drug safety, lead education, tree maintenance programs, complete streets activities and establishment of a baseline carbon footprint.

To get involved with Lawrence Township's Environmental Resources and Green Advisory Committee and sustainability initiatives, contact Sustainable Lawrence at www.sustainablelawrence.org.
