### Drinking Water Quality Results

#### BACTERIA

<table>
<thead>
<tr>
<th>Parameter</th>
<th>Current (TC)</th>
<th>2019 Provisional</th>
<th>MCL</th>
<th>MCLG</th>
<th>Violation</th>
<th>Potential Source</th>
</tr>
</thead>
<tbody>
<tr>
<td>Enterococci</td>
<td>7 positive samples out of 1,366 (0.45%)</td>
<td>Presence of enterococci is &lt; 5% of monthly samples.</td>
<td>0</td>
<td>N</td>
<td>Naturally present in the environment; their presence indicates potential contamination</td>
<td></td>
</tr>
</tbody>
</table>

#### Leach and Copper Rule

<table>
<thead>
<tr>
<th>Parameter</th>
<th>Current (TC)</th>
<th>2019 Provisional</th>
<th>MCL</th>
<th>MCLG</th>
<th>Violation</th>
<th>Potential Source</th>
</tr>
</thead>
<tbody>
<tr>
<td>Copper</td>
<td>0</td>
<td>Maximum sample and report sample if total copper MCL = 1.0</td>
<td>0</td>
<td>N</td>
<td>Natural or Human Fertilizer Waste</td>
<td></td>
</tr>
</tbody>
</table>

#### Fluoride

<table>
<thead>
<tr>
<th>Parameter</th>
<th>Current (TC)</th>
<th>2019 Provisional</th>
<th>MCL</th>
<th>MCLG</th>
<th>Violation</th>
<th>Potential Source</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fluoride</td>
<td>925</td>
<td>Maximum sample and report sample if total fluoride MCL = 2</td>
<td>0</td>
<td>N</td>
<td>Surface water sources</td>
<td></td>
</tr>
</tbody>
</table>

#### Chlorine Residual

<table>
<thead>
<tr>
<th>Parameter</th>
<th>Current (TC)</th>
<th>2019 Provisional</th>
<th>MCL</th>
<th>MCLG</th>
<th>Violation</th>
<th>Potential Source</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chlorine</td>
<td>0.60</td>
<td>Maximum sample and report sample if total chlorine MCL = 0.4</td>
<td>0</td>
<td>N</td>
<td>Naturally occurring</td>
<td></td>
</tr>
</tbody>
</table>

#### Other Notes

Some people may be more vulnerable to contaminants in drinking water than the general population. Infants, some racial and ethnic groups, and people with compromised immune systems or other health conditions may be more vulnerable to certain health effects from drinking water containing contaminants. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline at 1-800-426-4791.
TW water continues to provide safe drinking water to the communities it serves. The COVID-19 Pandemic has not affected TW water's ability to continue to provide safe drinking water to its customers.

COVID-19 and Drinking Water

TW's water continues to provide safe drinking water to the communities it serves. The COVID-19 Pandemic has not affected TW's ability to continue to provide safe drinking water to its customers.

Capital Improvements

TW is invest in significant capital projects to improve system reliability, water quality and operational performance. We have developed a ten-year capital improvement program to address these needs. These projects include the removal and replacement of water lines and hydrants, the expansion of the distribution system, and the reconditioning of raw water treatment facilities.

For More Information:
The City of Trenton Water Works (City and TW) is committed to ensuring the satisfaction of our customers. For more information, we welcome you to attend a City Council Meeting, held on the second Tuesday of each month at 5:30 PM, located at 319 East Street, 2nd Fl, Trenton NJ.

The City of Trenton is pleased to present the

TW Water Quality Report

Quality drinking water is an essential resource. The good news is your tap water is top quality. Our water meets all Federal and state standards.
