2009 MUNICIPAL BUDGET RECOMMENDATION

The partial definition of a budget is that it is a plan for action for a fixed period of time. As a policy document the budget determines the balance of priorities, the allocation of resources and is the financial document that receives the most public attention. This single document is the hub of fiscal management. Although it is prepared annually, the municipal budget must be crafted with full contemplation of the financial future of this organization. The 2009 Lawrence Township municipal budget is presented with full consideration beyond this single fiscal year.

The past philosophy applied to the preparation of the Lawrence Township municipal budget has been to balance the level of expected services with the cost to taxpayers. That same approach has been applied to the 2009 recommendations. Simultaneously, the 2009 budget was assembled with significantly sobering financial conditions and equally somber sacrifices that were required to balance resources versus needs. Some of the sacrifices will be community wide while others will be shouldered individually. Residents of our community are being burdened with the need to make sacrifices because of events not of their own making. As town government we too must do more with less and to the fullest extent possible not contribute beyond the absolute minimum any more weight to their individual burdens.

The theme of community was applied when preparing the 2009 municipal budget recommendation. The sharing of the load and the sharing of difficulty as we confront the dynamics of these unprecedented economic challenges were all given equal reflection.

The following are explanations of revenues and appropriations recommended in the 2009 municipal budget.

REVENUES

The budget relies on four categories of revenues, although there may be multiple sources in the Miscellaneous category. The four categories are Surplus, Miscellaneous Revenues, Delinquent Real Estate Taxes and Current Real Estate Taxes. When considering the amount of revenue to be anticipated in the budget attention must be given to preceding year activity, the likelihood of amounts to be realized under the current economic climate, subsequent year revenue requirements and legal constraints on permissible anticipated amounts. The interaction of the four revenue categories is also critical in planning future budgets, since a decrease in one category can demand an increase from another category. The category that absorbs shortfalls is most often Current Real Estate Taxes.

Available Surplus for use as anticipated revenue is predicated on the conclusion of fiscal operations for the immediately preceding fiscal year. The closing of financial operations identifies credits to the surplus account of the Township. Properly planning and managing those credit sources helps to replenish surplus that was utilized in the budget as anticipated revenue and what amount may remain available as revenue in subsequent budgets. A decrease in available surplus may result in upward pressure on property tax revenue to close a shortfall if similar anticipated surplus revenue levels cannot be sustained. During fiscal 2008 the amount of surplus revenue utilized to balance the municipal budget was \$6,210,000. After a close of operations I must report that Lawrence Township was not able to replenish that amount of surplus. The regenerated amount was \$6,026,950 or a shortage of \$183,050.

The 2009 municipal budget recommends \$6,150,000 as revenue from available surplus. This level is likely to exceed the estimated amount of surplus that will be regenerated. In light of the current economic climate this recommendation attempts to lessen the need for real estate tax revenue. Anticipated surplus is 15% of total revenues. It is important to note that the amount of surplus being utilized to support the municipal budget is 66% of the balance available, the highest level in the past ten years. At year-end 2008 the unaudited surplus balance is \$9,359,385.

1. HOW THE "CAP" WAS CALCULATED. (Explain in words what the "CAPS" mean and show the figures.)
2. A SUMMARY BY FUNCTION OF THE APPROPRIATIONS THAT ARE SPREAD AMONG MORE THAN ONE OFFICIAL LINE ITEM (e.g. if Police S & W appears in the regular section and also under "Operations Excluded from "CAPS"" section, combine the figures for purposes of citizen understanding. If you are requesting a "CAP Waiver", this should also be included in this section)

EXPLANATORY STATEMENT - (Continued)

BUDGET MESSAGE

Miscellaneous Revenues are generated from known and recurring sources. Included in this category are local revenues, state aid, grants and other various sources. The Local Budget Law requires that anticipated amounts of an individual item of revenue may not exceed the amount realized in cash for the same revenue in the immediately preceding budget year. The 2009 budget is submitted with anticipating the lower state aid as was received in 2008. The total amount of state aid in 2008 was \$5,118,156, and in 2009 the anticipated amount is \$5,008,934, a decrease of \$122,708.

Realized amounts of individual sources of Miscellaneous Revenues may vary from year to year. Worthy of note is the amount realized from "Interest on Investments", this one source decreased in the amount received by \$517,139 from the prior year. The category also includes revenue from "Sewer Charges". These fees are collected on behalf of the Ewing-Lawrence Sewerage Authority (ELSA) for sewer usage by commercial and residential property owners and are passed directly to the Authority. It will be necessary to increase the 2009 charges in order to meet the billing obligation anticipated from ELSA to Lawrence Township. Specific anticipated amounts for 2009 from Miscellaneous Revenues have increased over the prior year for Construction Fees and Permits, Municipal Court Fines and Costs, Recreation Program Fees and Premium on Bond Sale. New revenue is being anticipated from contributions of The Lawrenceville School and Rider University to help offset the cost of public safety appropriations. In addition, \$300,000 is being anticipated from the sale of an alcoholic beverage distribution license. Generally other individual revenues remained unchanged. Overall Miscellaneous Revenues are 36% of total budget revenues.

The third category of revenue is receipts from delinquent taxes. The source of these receipts is the outstanding balances of unpaid taxes and tax title liens payable at the close of the prior fiscal year. The tax receivable balance remained virtually unchanged from 2008 to 2009 at \$1,360,000. The amount anticipated against this receivable is \$793,000, an increase of \$25,000 from the prior year. Delinquent taxes as a revenue remain at 2% of total budget revenues.

The fourth and final category of revenue is Current Real Estate Taxes. The amount of Current Real Estate Taxes anticipated to support the 2009 municipal budget is \$19,892,637 an increase of \$246,493. This growth in the level of revenue from taxes will cause the municipal tax rate to increase .01, from .71 to .72. Current

Real Estate Taxes are 47% of total budget revenues. The amount to be raised by taxation is compliant with the statutory requirement that the municipal tax levy may not increase in excess of two percent (2%) over the tax levy of the prior year.

Lawrence Township has experienced another decline in taxable value. The taxable value of property in Lawrence Township for 2009 is \$2,688,130,426 compared to 2008 when the value was \$2,695,162,162 or a decrease of \$7,031,736. The decrease also reduces the value of one penny on the tax rate to \$268,813 from a 2008 value of \$269,516. The decrease in value places upward pressure on the tax rate as there are no new tax revenues to help offset the increased costs of municipal operations or to make up losses from other diminishing sources of income. The contributing factors to the decline in value is a result of general reductions in real estate prices and that Lawrence Township finds itself at near capacity for growth in turn limiting opportunities to add properties to the tax rolls.

APPROPRIATIONS

As unpleasant as it was to announce an increase to the municipal tax rate for 2009 the discussion of appropriations will be equally displeasing. The appropriation side of the 2009 budget calls for community wide and individual sacrifices. As always when preparing the recommended budget we remained focused on the efficient and effective delivery of services at a level Lawrence Township residents deserve. Nevertheless it has become necessary to forgo some of these same levels of service that have been experienced in the past.

In order to bring this budget into balance the following changes were necessary:

A reduction in operating budgets of municipal departments

A reduction of staffing in the Police Department, Department of Health, Division of Construction, Division of Engineering and Municipal Court

Implementation of a hiring freeze

Where legally permissible charges to grant programs for current operations

Ambulance Maintenance

Elimination of seasonal positions in the Divisions of Park Maintenance and Streets and Roads

A wage freeze for all summer recreation program employees

The recommended budget also contemplates a change in the providing of ambulance service. Currently service is split between full-time municipal employees and a contracted service. The change will be to a complete around-the-clock service staffed by municipal personnel.

In addition, Lawrence Township labor unions were asked to consider whether their bargaining units would "open" existing collective bargaining agreements to find mutually collaborative alternatives to workforce reductions. The labor unions declined.

A list of major increases and/or extraordinary changes in spending with explanations is as follows:

Appropriation	Increase/Decrease	Reason
Salaries	\$699,000	Known and Anticipated Wage Settlements
Health Benefits	47,000	State Health Benefits
Pensions	175,000	Full Phase-In of Contributions
Fire Services	(19,500)	Eliminate Night Duty Funding
Police Other Expenses	13,000	Communication Equipment Contracts
Vehicle Maintenance	50,600	Transfer of Fire Apparatus Maintenance Costs

Trash Collection	15,000
Utilities	45,000
Debt Service	(91,000)
Ewing-Lawrence Sewerage Authority	270,000
Emergency Medical Services	61,000
Reserve for Uncollected Taxes	182,000

Contract Increase
General Increases and Ambulance Fuel
Retirement of Debt
Increase in Direct Billing
Change to Full-Time Employee Service
Increase Amount to be Raised by Taxes

The increase in 2009 salaries is the result of the costs of existing collective bargaining agreements, the anticipated settlement of expired agreements with the Police and the savings from staffing changes in the previously mentioned departments.

Health benefits are provided to current municipal employees and retirees until Medicare eligible. The benefits are a matter of collective bargaining with the labor unions. The premium for this coverage, compounded by an increase for 2009, continues to place economic hardship on the municipal budget. Once again it will be necessary to seek cooperation from the labor unions for alternatives to funding this benefit. Other insurance premiums are a net change in various lines of coverage but primarily for the contribution to the Township Unemployment Trust Fund.

The final phase-in of employee pension costs is now complete. The pension contributions are directly billed to the municipality by the State of New Jersey. The 2009 pension appropriation increase of \$175,000 includes \$147,000 for the Public Employees Retirement System (PERS) and \$27,000 for the Police and Firemen

Retirement System (PFRS). This recommended budget contemplates not deferring pension contributions whether or not that deferral is authorized by the New Jersey State Legislature.

The decrease in appropriation for Fire Service is the elimination of the pilot program for "overnight duty crews" at the fire stations. The matter will be reconsidered during development of the fire service strategic plan. Police Other Expenses are increasing due to costs of communication equipment maintenance and use contracts.

The Other Expense Vehicle Maintenance Budget reflects an increase in order to transfer financial liability for repair and maintenance of fire apparatuses operated by the Volunteer Fire Companies but owned by Lawrence Township. The cost of those repairs is placing an immense financial burden on the fire companies.

Trash collection costs are rising due to an adjustment in the per ton costs by the service provider. Utility costs are being affected by market conditions. The reduction in appropriation for debt service is a result of paying down existing debt.

The Ewing-Lawrence Sewerage Authority (ELSA) provides Lawrence Township residents sanitary sewer service. The Authority is responsible for all operations and maintenance of the plant and collection system. Lawrence Township is billed by ELSA for the costs of operations based upon flow into that collection system; residents are then billed based on water consumption for the usage of the system. The costs are a direct pass through to users. The 2009 budget reflects an increase to the amount billed to the Township, which said amount would be collected by an increase in the user fee charged. No costs will be added to the tax rate for this service.

The Reserve for Uncollected Taxes is a non-spending appropriation statutorily mandated. The purpose of this appropriation is to close the gap between the amount of current taxes anticipated to be collected and one hundred percent collections. The amount is needed to meet the cash requirements of paying all school, county and municipal taxes. This appropriation is subject to change as further information becomes available on required levels of taxation.

The anticipated revenues and levels of appropriations included in the 2009 recommended budget are a confluence of many factors. In many budget years anyone of these influences would be significant independently of the other. Some of these influences are the overall poor condition of the economy confronting the Township and its individual residents, the systemic conditions that mandate many appropriations being relegated as non-discretionary spending in the municipal budget, the uneven playing field that gives significant advantage to police officers in the negotiation of labor agreements and labor arbitrators who fail to protect the taxpayers and the policy decisions at the State level which then shift costs to the local level.

After thorough and deliberative development of the 2009 recommended budget, being presented is a proposed document that has balanced resources versus needs. To that end it will be necessary to increase the municipal tax rate by one penny (.01) for fiscal 2009. The impact upon a residential property owner at the average assessed value of \$164,581 will be \$16.46 annually or \$1.37 per month.

I would like to thank the Township Department Directors, staff of the Division of Accounts and Control and staff of the Municipal Manager's Office for their positive contributions in trying to make the 2009 recommended budget as reasonable as possible. The Township Administration is prepared to fully participate in the review of this proposal by the Township Council and members of the public.

This budget message has been updated from the original message of January 20, 2009.

Respectfully submitted,

Richard S. Krawczun, CMFO
Township Manager

CAPITAL BUDGET AND CAPITAL IMPROVEMENT PROGRAM

This section is included with the Annual Budget pursuant to N.J.A.C. 5:30-4. It does not in itself confer any authorization to raise or expend funds. Rather it is a document used as part of the local unit's planning and management program. Specific authorization to expend funds for purposes described in this section must be granted elsewhere, by a separate bond ordinance, by inclusion of a line item in the Capital Improvement Section of this budget, by an ordinance taking the money from the Capital Improvement Fund, or other lawful means.

CAPITAL BUDGET

- A plan for all capital expenditures for the current fiscal year.

If no Capital Budget is included, check the reason why:

Total capital expenditures this year do not exceed \$25,000, including appropriations for Capital Improvement Fund, Capital Line Items and Down Payments on Improvements.

No bond ordinances are planned this year.

CAPITAL IMPROVEMENT PROGRAM

- A multi-year list of planned capital projects, including the current year.

Check appropriate box for number of years covered, including current year:

3 years. (Population under 10,000)

6 years. (Over 10,000 and all county governments)

___ years. (Exceeding minimum time period)

Check if municipality is under 10,000, has not expended more than \$25,000 annually for capital purposes in immediately previous three years, and is not adopting CIP.
