NATURE CENTER EXPLORER'S CAMP

Do your children have a curious mind? Do they ask a lot of questions? Do they like exploring, tinkering, building, testing, experimenting? We have a place for them! Our summer camp offers children the opportunity to pursue their curiosity about the world around them in an amazing setting, with engaging, hands-on activities led by a respected award-winning veteran STEM and Elementary Science Teacher. Campers will participate in a variety of STEAM (Science, Technology, Engineering, Art, and Math) experiences that will awaken their curiosity and inspire interest in such topics as stream and forest ecology, design-build-test engineering, visual and spatial awareness and design, data collection and analysis, reasoning-logic-sequencing, and experimentation. They will also enjoy games and sports. Our camp offers a little bit of everything!

Camp Lead Instructor: John Emmons BS, MA- NJ Certified Elementary Teacher - Currently Elementary STEM Teacher in Haddonfield, NJ Summer Camp Director at Terhune Orchards in Princeton. Also a member of Lawrence Township Open Space, Sustainable Lawrence, and Lawrence Nature Center Committees

JULY 23-27

GRADES 3-6

STEAMIN' AT THE LNC CAMP
SCIENCE, TECHNOLOGY, ENGINEERING, ARTS AND MATH
IN NATURE

Students in grades 3-6 (in Sept. 2018) have the opportunity to participate in a unique camp designed for children who enjoy learning about nature as well as science, technology, engineering, art and math. Each day of the week, participants will focus on discovery and exploration as they hike, observe, construct, create and immerse themselves in the wonders of nature. Experiments, research and hands on projects will ensure active, engaged, fun learning for all!

Camp Lead Instructor: Jeanne Muzi, NJ Certified Teacher - Elementary Enrichment Specialist/Gifted & Talented Teacher Ben Franklin, Eldridge Park, Lawrenceville Elementary and Slackwood Schools, Lawrence Township Public Schools

Held at
**Lawrence
